 **Zonda**TM
Education

Zonda Education was engaged to perform demographic research and enrollment projections. Our process involved researching five years of district enrollment data, geo-code student data, review of economic conditions, review of vacant land and housing research. With our more than 40 years combined experience, we built a very extensive geographic data base. The process creates a detailed analysis of where the students reside and where they attend school. These patterns, along with economic conditions and research from the housing market, form the basis for the enrollment projections we provide to more than 100 districts throughout the state of Texas.

DISTRICT OVERVIEW

Key Takeaways

- Austin Independent School District's 2022/23 student enrollment (including out-of-district students) is 73,420 students, an enrollment decline of 1,178 students over 2021/22.
- The largest year over year enrollment declines were in kindergarten and 7th grade, each declining over 300 students between 2021/22 and 2022/23.
- AISD's elementary school population is 35,034 students, a decrease of 765 students (-2.1%) over 2021/22.
- Total elementary school population is projected to decrease by 255 students, or -0.72%, in the next year and decline by roughly 855 students, or -2.4%, in the next 5 years.
- AISD's middle school population is currently 14,473 students, a decline of 696 students over last year (-4.58%).
- The district's middle school population is expected to decline by 269 middle school students, or -1.9%, in the next year, and 388 students, or -2.7%, in the next 5 years due to smaller class sizes moving into secondary campuses.
- AISD's high school population is 20,493 students, a decrease of 128 students over last year (-0.62%).
- The district's high school population is forecasted to decline by 154 students next year, and 2,287 students in the next 5 years, as high school cohorts remain low and smaller class sizes advance.
- In 2023/24, AISD is projected to enroll 72,815 students, a decrease of 605 students (-0.8%) from the current year.
- In 5 years, the district may see a decline in both population (3,500 students) and enrollment (2,897 students), resulting in a projected enrollment of 70,523 students.
- Students that reside outside the AISD boundary, but transfer into the district increased by 542 students this year. The largest jump since AISD started open enrollment in 2017/18
- Nearly 16,000 apartment units and an additional 5,000 condo units are under construction across AISD, which will come online within the district in the next one to two years and are expected to yield minimal students.
- AISD added more than 5,760 multi-family units and 720 single family units in the last year, even as the district saw a decline in student yields because of the total enrollment decline.

Austin ISD Executive Summary

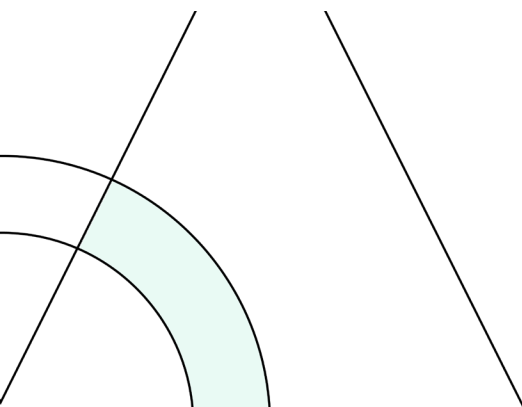

The Austin Independent School District experienced an enrollment decrease of 1,178 students in 2022/23 resulting in an enrollment of 73,420 students. The effects of post-pandemic life impacted not just AISD enrollment, but public school enrollment across the state. The largest enrollment declines from the 21/22 school year to this 22/23 school year were in kindergarten and 7th grade.

The unemployment rates in the Austin-Round Rock MSA are now at or below rates seen in the area, pre-pandemic. In November 2022, the unemployment rate for the MSA stood at 2.8%. From November of 2021 to November of 2022 over 34,200 jobs were added in the area, an increase of 2.5%. Austin's large diverse economy and educated workforce will continue to drive the economic recovery in 2023, especially as the MSA experiences a large increase in the tech industry.

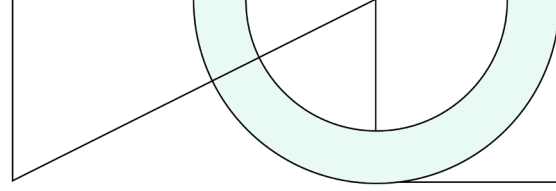

The district's housing market is largely driven by high density infill and multi-family development. There have been roughly 750 traditional single family homes added in the 12 months leading into the end of the 3rd quarter (Oct. 21 – Sept. 22). In the last 12 months the highest until totals that came online were categorized as multi-family. This total includes, condominiums, apartments and for rent housing developments (where applicable). These new rental properties have shown to have very low student yields, often less than 2 students for every 10 units built. While traditional single family developments throughout the district may add 3-5 students for every 10 home builds. In the next 5 years the district is expected to add roughly 2,500 single family homes and over 20,000 multi-family units. Although the raw number of units described above would generally result in some enrollment gains, this is not likely the case in AISD, with the very low resulting student yields and negative retention cohorts at the secondary level (less than 1 to 1, year over year).

Enrollment declines in Austin ISD are expected to continue with the district projected to decline by 605 students next, for a 2023/24 enrollment of 72,815. Project growth cohorts at the lower levels are projected to see moderate increases as they return to pre-pandemic rates similar to 2019/20. However, the district will continue to decline in enrollment dropping by almost 3,000 students over the next 5 years before possible rebounds occur in the latter part of this 10 forecast period. AISD enrollment numbers reflect all students enrolled in the district summarized based on the campus they attend during the 2022/23 school year, regardless of where they might live. The student population projections include only students living within the Austin ISD district boundaries, based on the campus attendance zone of their physical address. In 2031/32 the enrollment of AISD is expected to be just under 80,000 students.

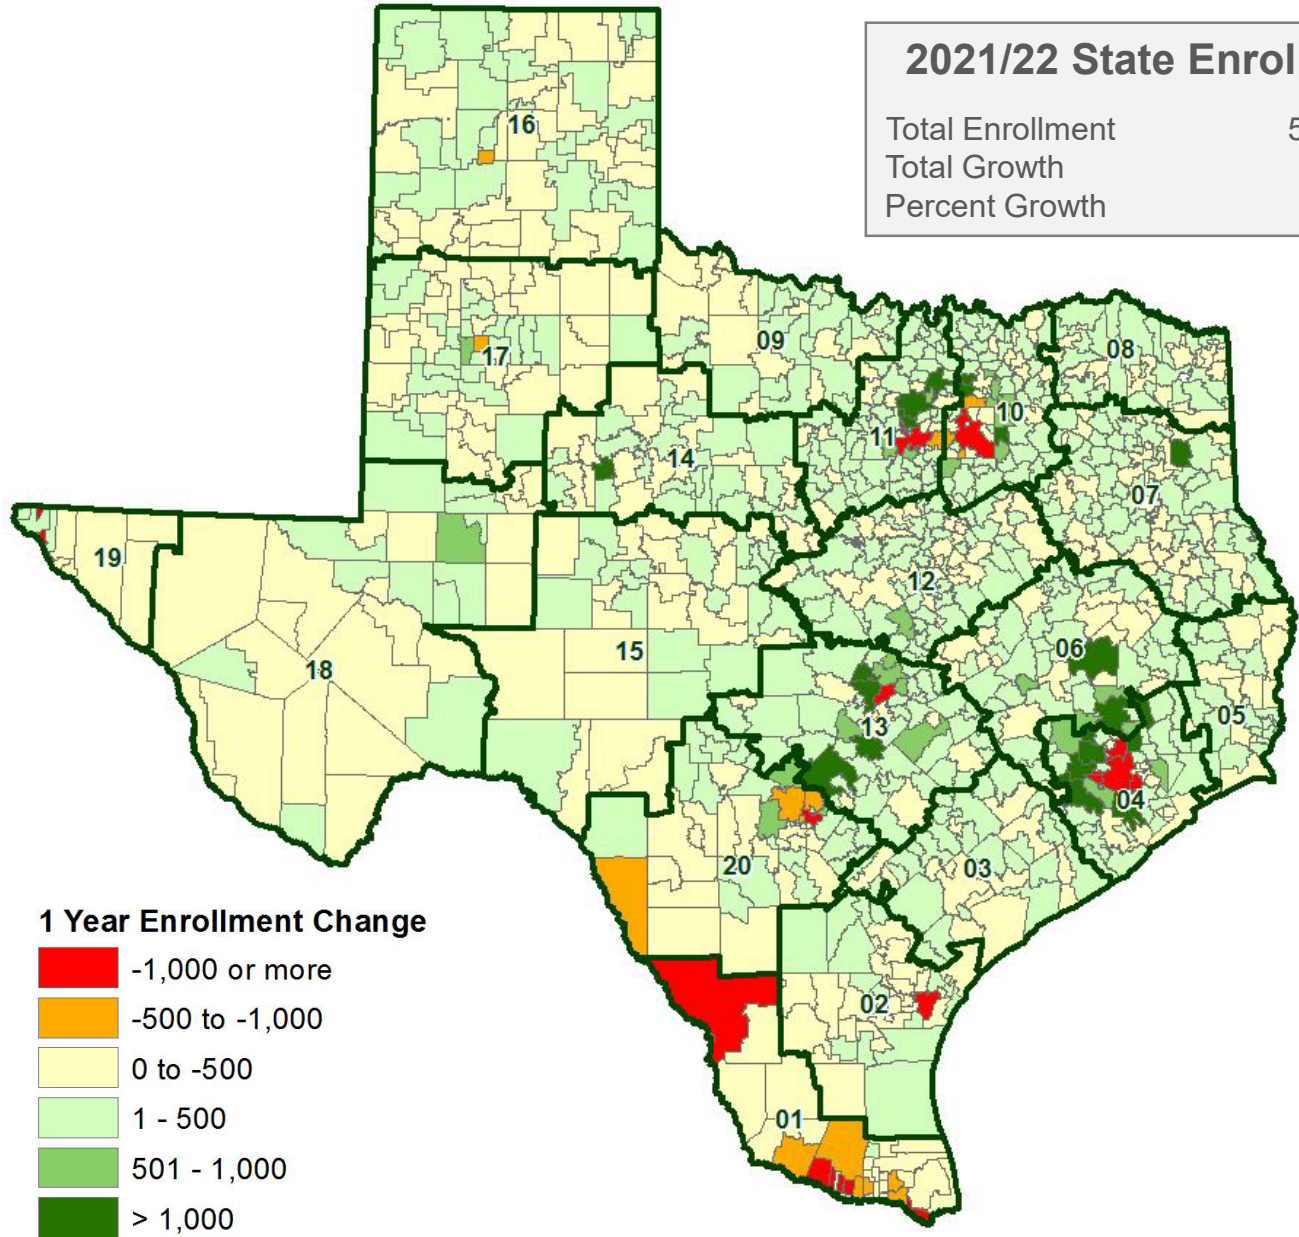

Texas Enrollment Trends

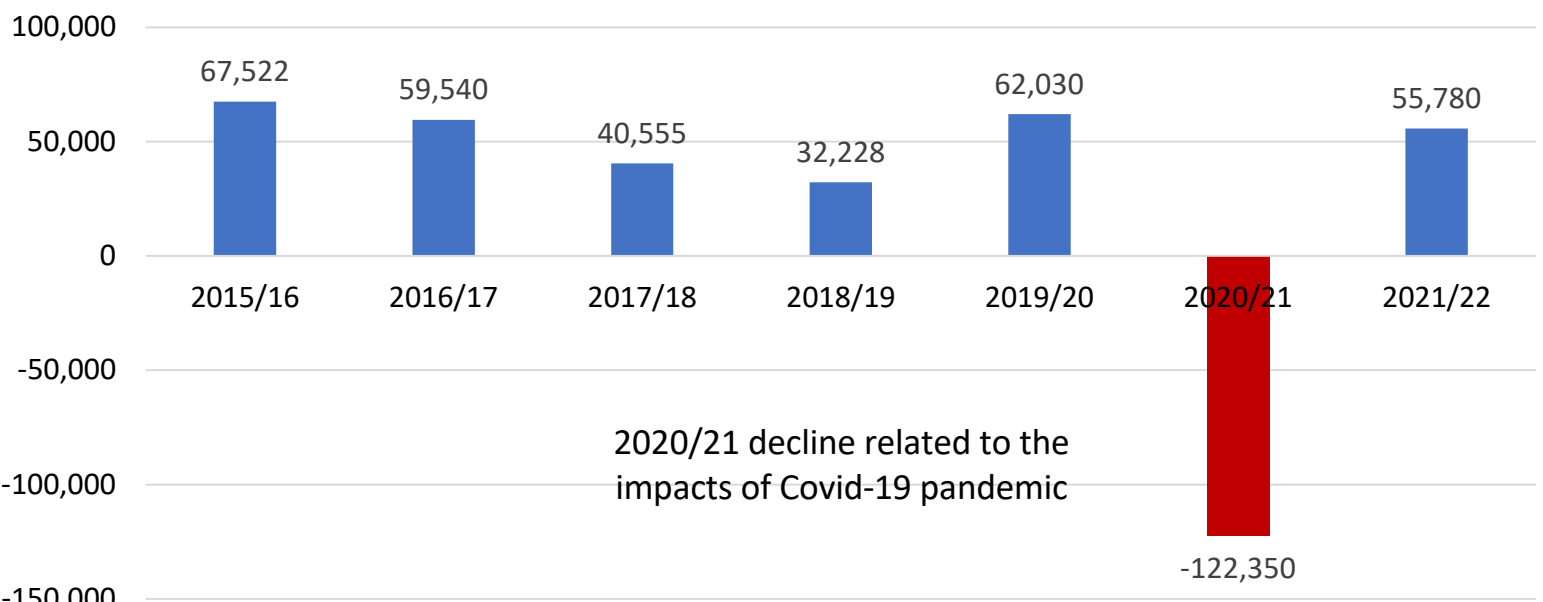

2021/22 State Enrollment

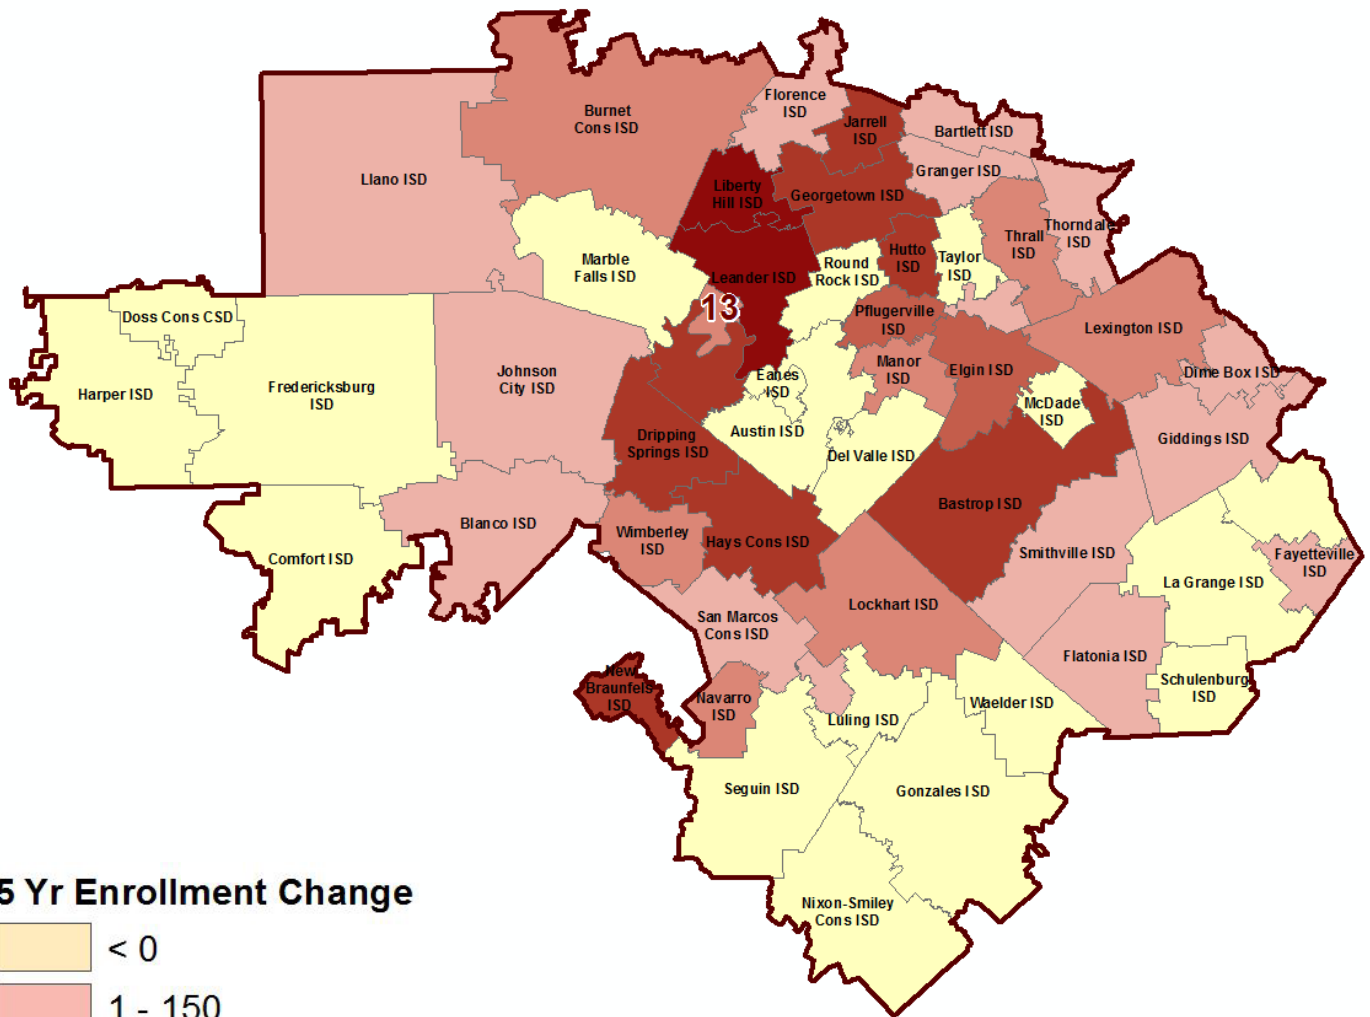

Total Enrollment	5,427,370
Total Growth	55,784
Percent Growth	(1.0%)

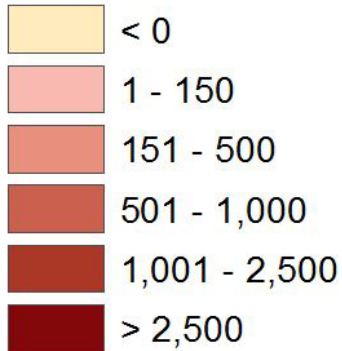

Texas ISD Enrollment Change

Region 13 Enrollment Trends

5 Yr Enrollment Change

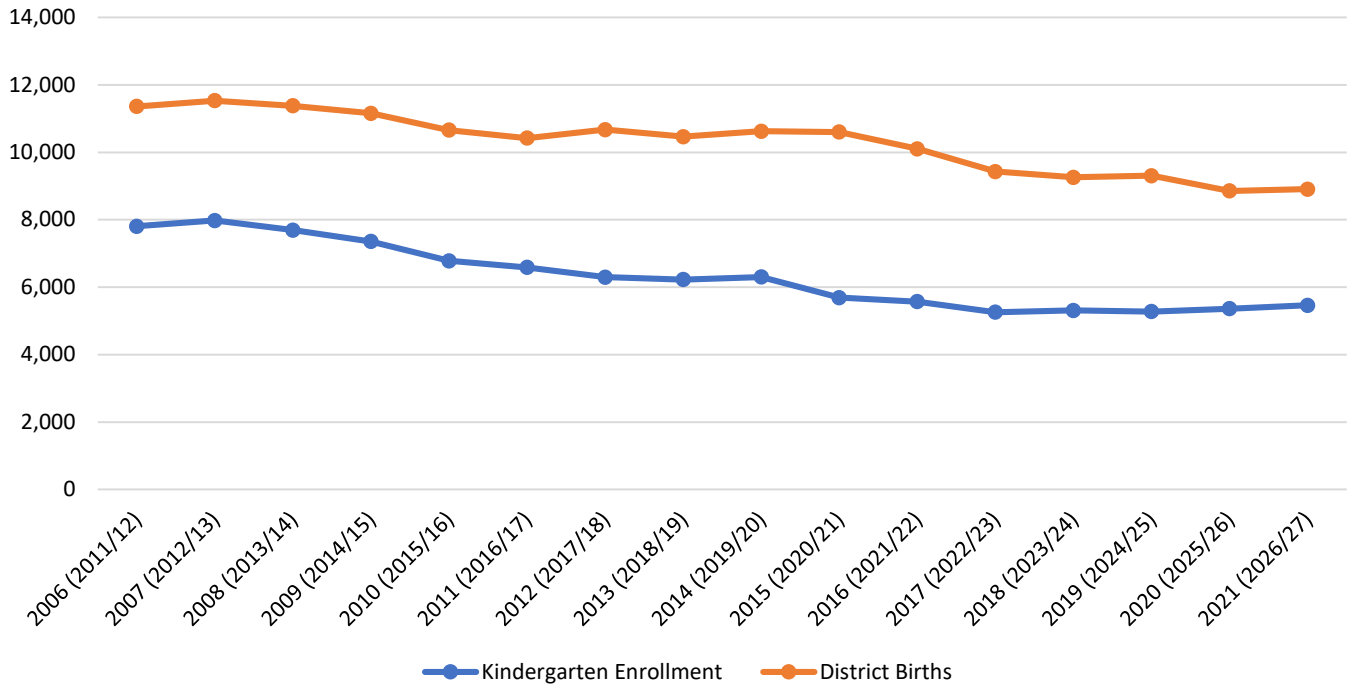

- In the 2016/17 school year, AISD enrolled 83,067 students
- In the 2021/22 school year, Austin ISD enrolled 74,598 students
- This represents a 5 year enrollment decrease of -10.2%

Birth Rate Analysis

Austin ISD KG Enrollment v. District Births

Year	Kindergarten Enrollment	District Births	Ratio
2006 (2011/12)	7,808	11,360	0.687
2007 (2012/13)	7,975	11,531	0.692
2008 (2013/14)	7,693	11,378	0.676
2009 (2014/15)	7,353	11,155	0.659
2010 (2015/16)	6,782	10,660	0.636
2011 (2016/17)	6,585	10,421	0.632
2012 (2017/18)	6,297	10,672	0.590
2013 (2018/19)	6,226	10,463	0.595
2014 (2019/20)	6,304	10,625	0.593
2015 (2020/21)	5,691	10,603	0.537
2016 (2021/22)	5,573	10,101	0.552
2017 (2022/23)	5,258	9,430	0.558
2018 (2023/24)	5,310	9,260	0.573
2019 (2024/25)	5,278	9,305	0.567
2020 (2025/26)	5,362	8,855	0.606
2021 (2026/27)	5,462	8,908	0.613

- In 2017, 9,430 live births occurred within AISD, generating a Kindergarten class of 5,258 students in 2022/23
- Due to competition from area charter schools and affordability, the ratio of Kindergarten students to district births has been declining since 2012/13
- Additional Kindergarten losses occurred in 2021/22 due to Covid-19
- Between 2016 and 2019, births within AISD continued to decline, however, enrollment may increase as AISD's capture rate returns to pre-COVID levels

Leavers and Returners Analysis

	2018/19	2019/20	2020/21	2021/22	2022/23

*Totals include additional districts per TEA rounding rules

- The Texas Education Agency reported 16,303 students transferred out of AISD and into neighboring school districts or public charter schools in 2021/22
- Between 2016/17 and 2021/22, the number of students transferring out of AISD to neighboring charter schools or public school districts increased by 2,248 students
- The opening of charter school campuses in Austin has resulted in approximately 15,240 students transferring out of AISD in 2021/22

Charter School Tracking

- Within the AISD boundary there are 52 operating charter school campuses, including 1 campus that opened in 2020/21 and 1 that opened in 2021/22
- These campuses enrolled more than 18,550 students in 2020/21, an increase of 752 students over 2019/20
- Within a 5 mile radius of Austin ISD, there are 77 campuses that enrolled more than 28,850 students in 2020/21. Seven campuses opened in 2022/21 and two in 2021/22.

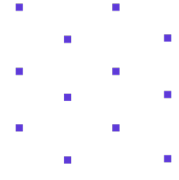

ECONOMIC OUTLOOK

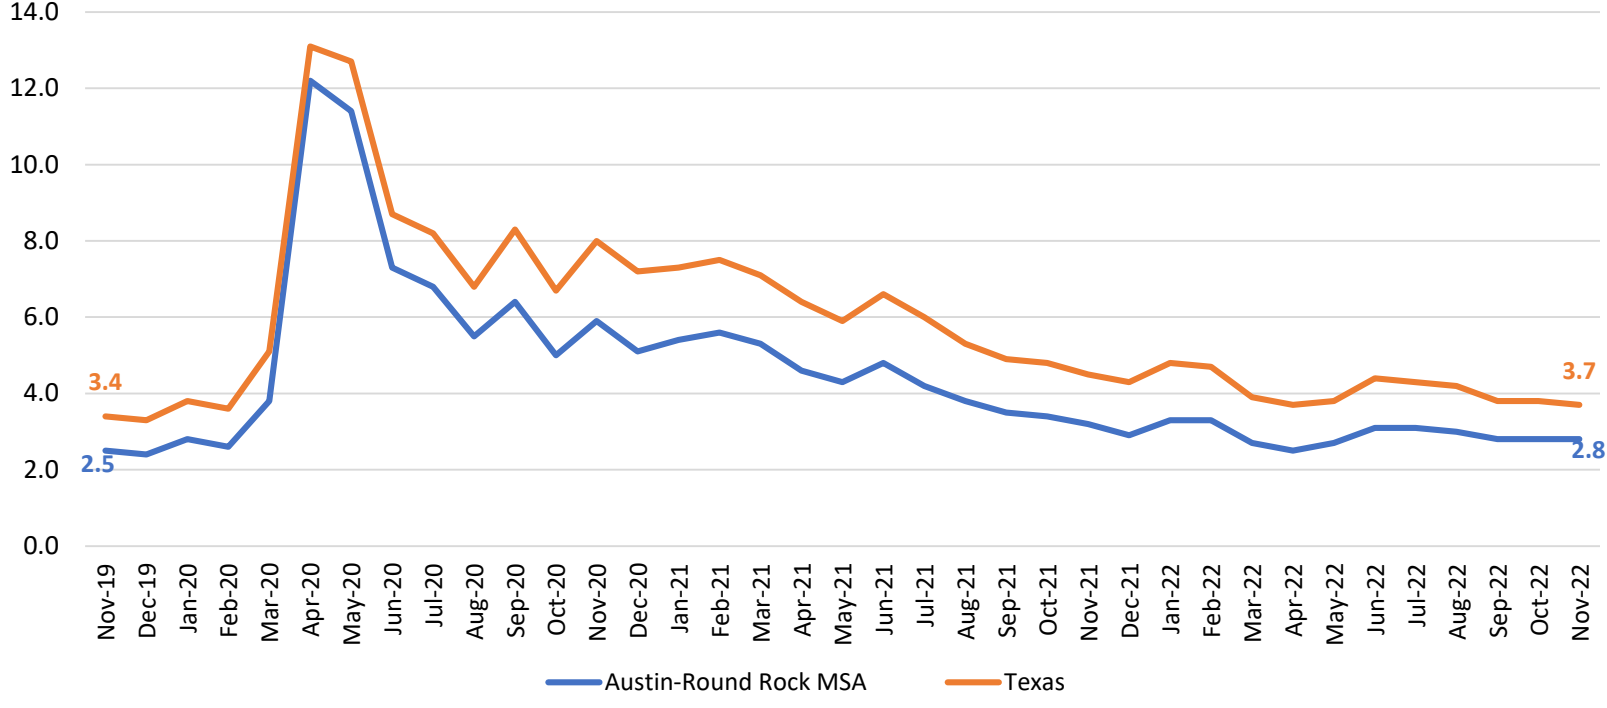

The COVID-19 rebound has returned many norms going into 2022, including the strong economy at the start of the year. 2021/22 proved to be another record year for low unemployment rates and strong job growth within the Austin-Round Rock MSA. However, like the rest of the state and nation, Austin saw unemployment peak at nearly 12% in April of 2020 as lockdown restrictions, employment furloughs and layoffs went into effect. As lockdowns eased and company hiring resumed, unemployment rates have once again dropped below 4%, similar to pre-Covid trends. The Austin-Round Rock MSA is in a unique position to prove its economic resilience with its educated and diverse workforce. This strength is proven with Apple's Headquarters and Tesla Electrical Vehicle Factory both announcing further expansion in 2022. Both of these expansions are expected to be complete in 2024 – 2025, bringing additional high paying skilled positions to the city. Although not physically located in Austin ISD, many employees at these facilities may reside in the district.

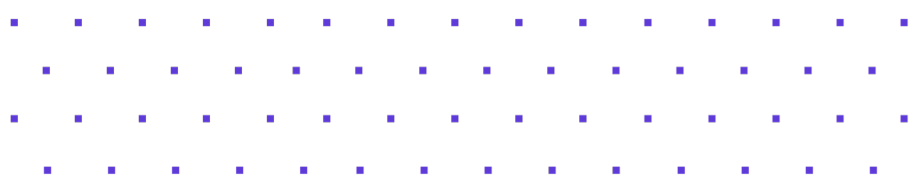

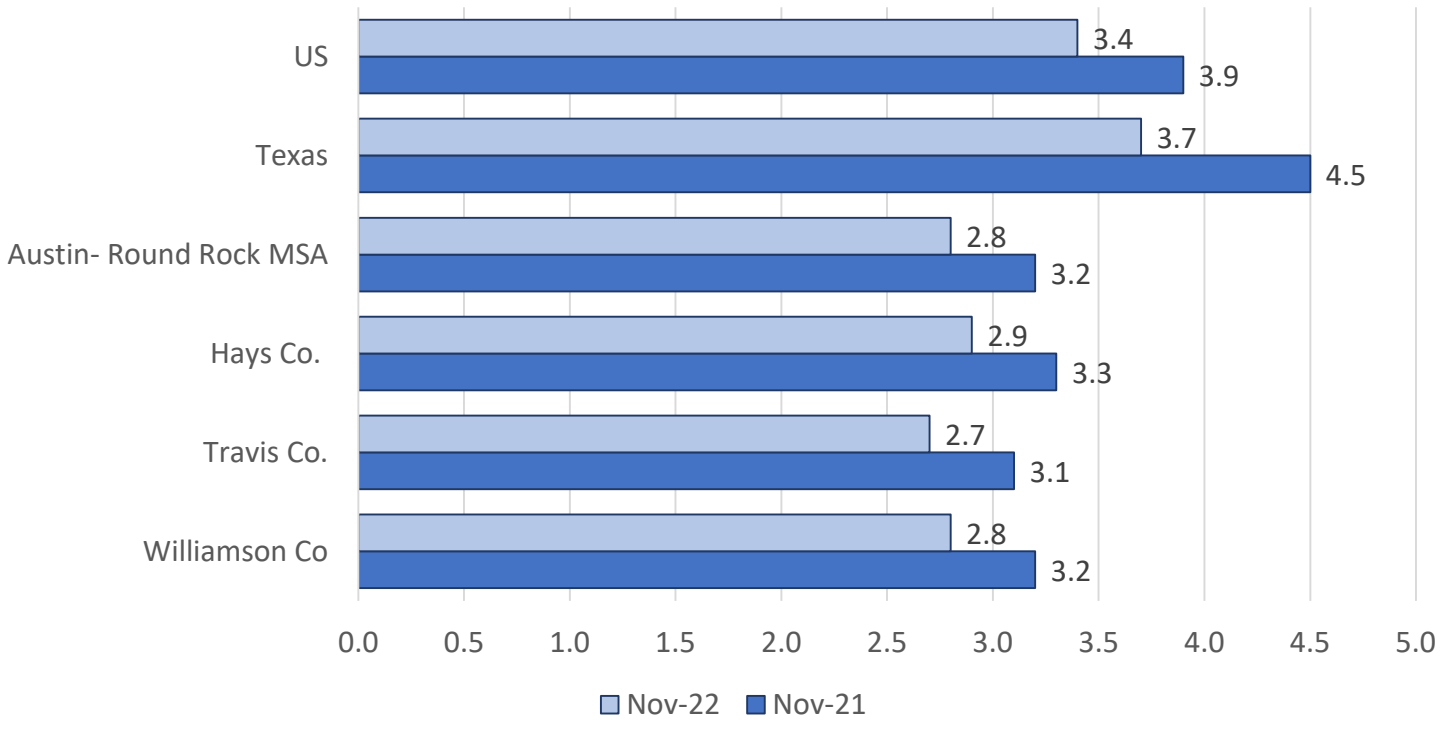

Economic Snapshot (November 2022)

Unemployment Rates, Nov. 2019 - Nov. 2022

Unemployment Rate, Year Over Year

Tesla Electric Vehicle Factory

- Plans filed for \$717 million expansion at Tesla Electric Vehicle Factory constructing additional 1.4 million square feet spanning 4 new buildings
- Located east of Texas 130 that spans from near the Colorado River north to near Harold Green Road
- Expansion expected to begin early 2023 with completion anticipated early 2024
- The factory currently employs 10,000 people about a year after opening

Apple Headquarters

- Plans filed for \$240 million Phase 2 expansion at northwest Austin campus constructing additional 419,00 square feet spanning 2 new buildings
- Located east of West Parmer Ln and north of McNeil Dr
- Expansion expected to begin fall 2023 with completion anticipated spring 2025
- New space will provide Apple the ability to expand its workforce in the future, though exact employee expansion numbers have not been released

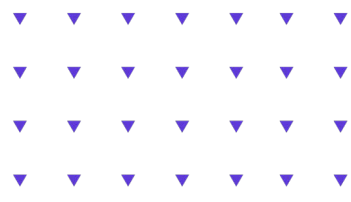

HOUSING MARKET

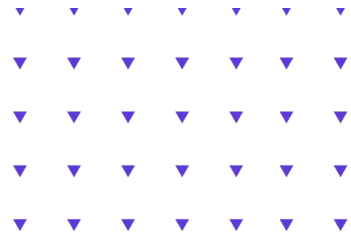

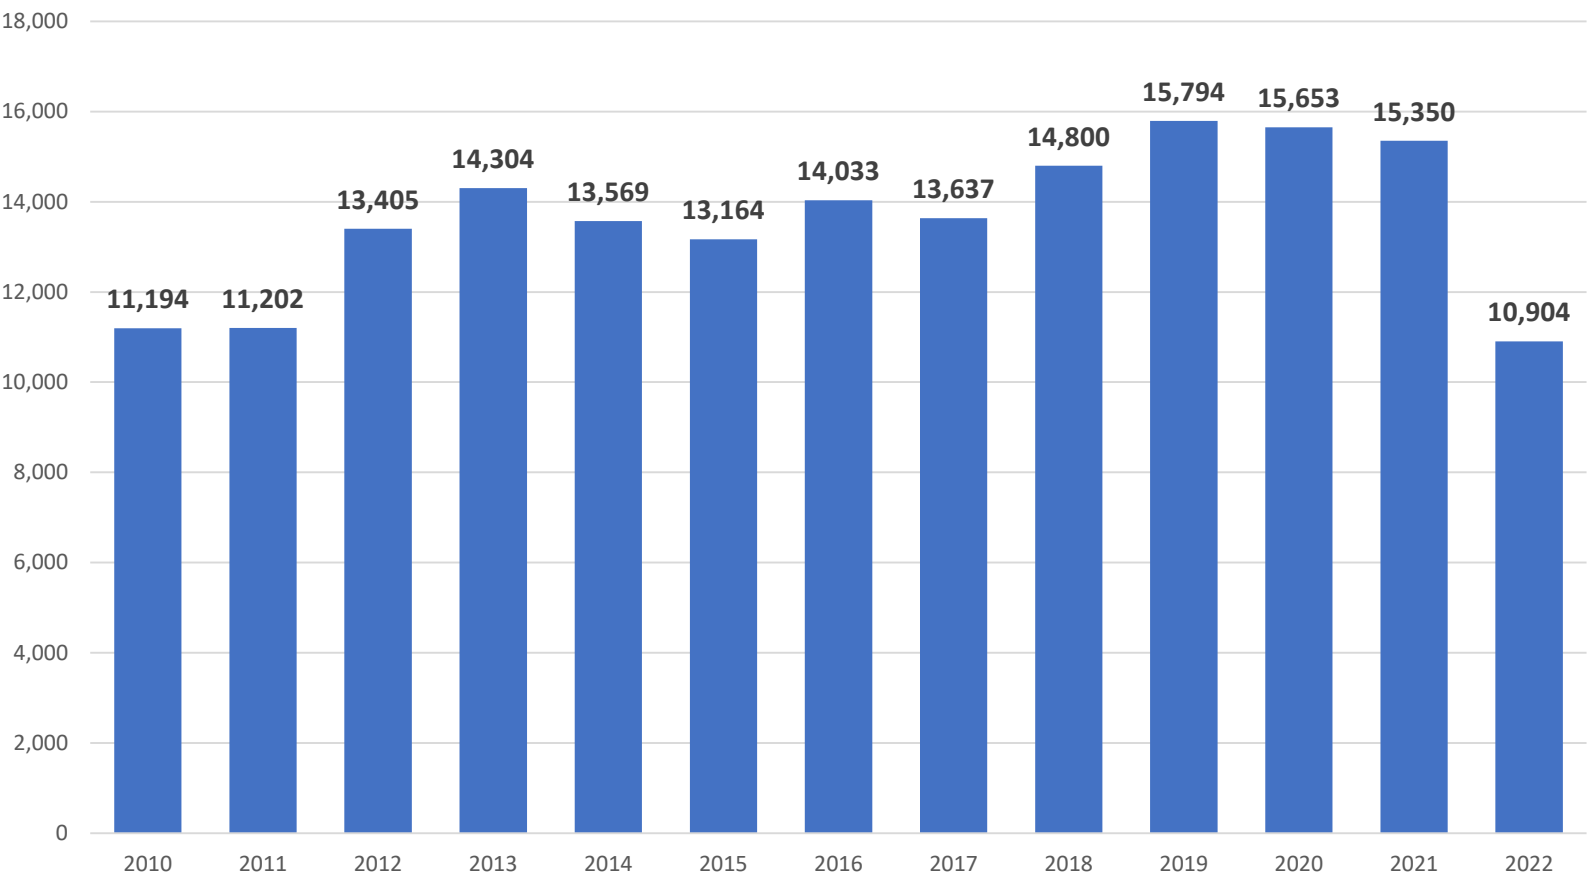

While the housing market remained resilient during the 2020/21 post-pandemic time period, a slight downturn began in 2022/23. Within AISD, total new home starts and closings totals are down from 2021 partially due to condominium complexes being classified as multi-family developments for this report. Due to increased occupant turnover and the fact that many condominium complexes had been double categorized as both single family and multi-family developments, condominium complexes are solely classified as multi-family units this year. Additionally, rising home interest and mortgages rates and difficulty in obtaining home construction materials have become obstacles nationwide in sustaining the increased home production trends of 2020 - 2021. New and existing home inventory have almost returned to a stable level, yet home prices continue to rise to record setting levels. Within AISD, there were more than 700 new single-family residential closings in the last 12 months through the 3rd quarter of 2022. However, over 5,700 multi-family units were completed in the last 12 months which yield significantly fewer students to AISD schools. Currently, nearly 16,000 apartment units and an additional 5,000 condo units are under construction across AISD. While these complexes will cause an increase in new multi-family residential units in 2023 and 2024, they are not expected to yield a significant number of new students. In fact, multi-family yields declined in 2022/23 whereas single-family yields increased. Apartment and condo units continue to yield below 1-2 students per 10 units constructed within AISD.

Austin ISD Housing Activity

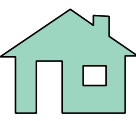

Annual Home Sales, 2010 - 2022

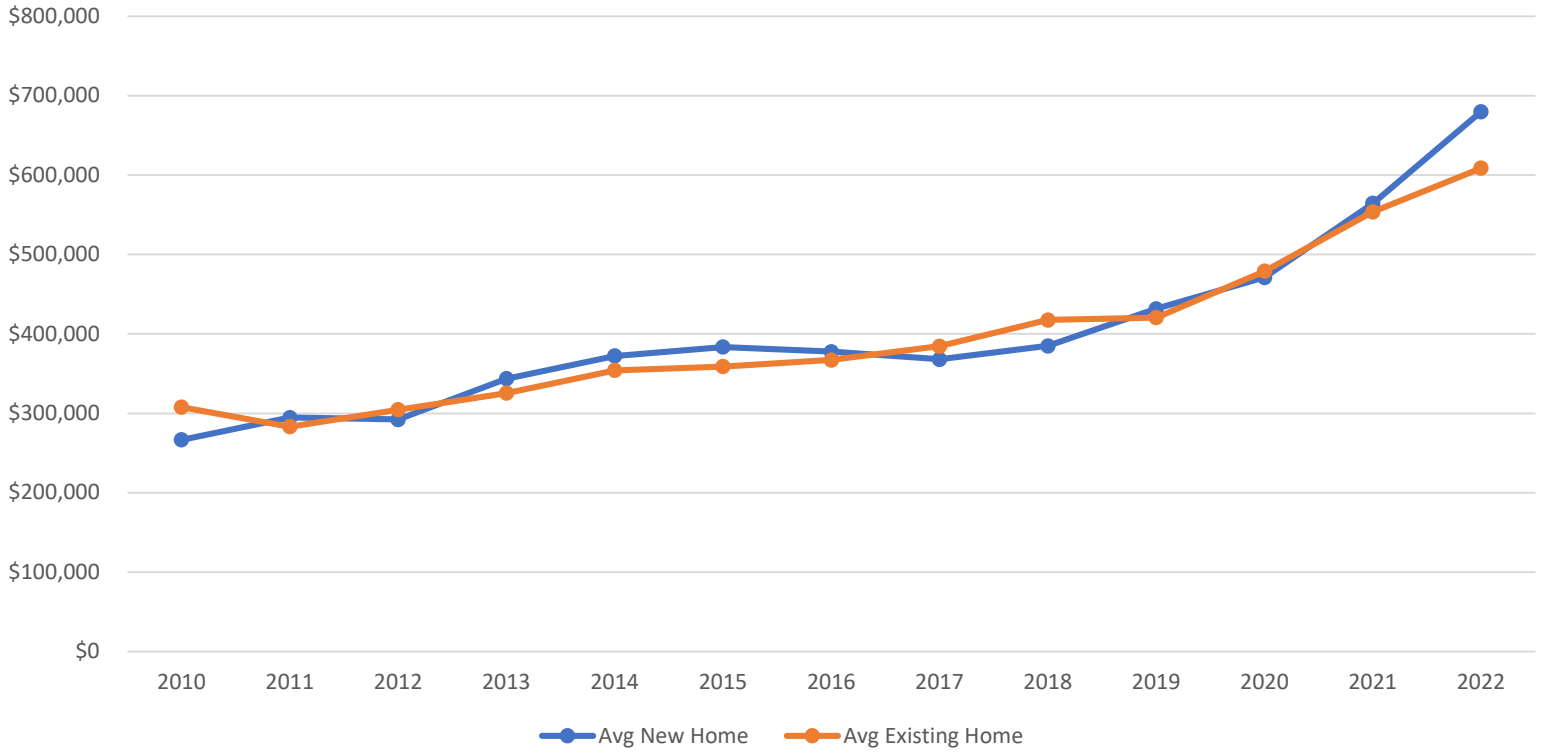

Housing decline in new and existing home sales in 2022 is likely a result of continued high price points and interest rate increases

Austin ISD Historical Home Price Analysis

Average New v. Existing Home Price, 2010 - 2022

	Avg New Home	Avg Existing Home
2010	\$266,748	\$307,688
2011	\$294,571	\$283,096
2012	\$292,321	\$304,607
2013	\$343,614	\$325,503
2014	\$372,289	\$354,113
2015	\$383,588	\$358,875
2016	\$377,674	\$367,306
2017	\$368,133	\$384,650
2018	\$384,924	\$417,679
2019	\$431,727	\$420,605
2020	\$471,268	\$479,104
2021	\$564,620	\$553,848
2022	\$680,025	\$608,945

- The average new home sale price has more than doubled since 2012 within the Austin ISD, a rise of more than \$387,700
- The average existing home sale price within the district rose 99% since 2012, a rise of more than \$304,330

Includes Single Family Homes, Townhomes, Duplexes and Condos

- Within AISD there were 228 new home starts and 216 new home closings in the 3rd quarter of 2022
- Total district new home activity has slowed since 2021 due to rising home interest and mortgage rates
- Difficulty obtaining construction materials continues to be an additional obstacle in the homebuilding process throughout the state

Historical Student Yield by Housing Type

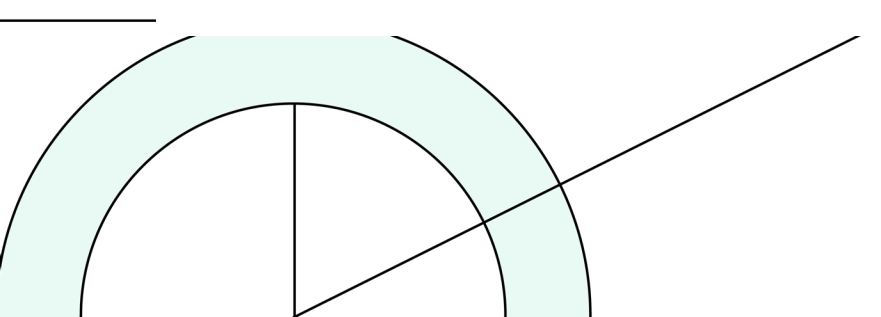

Methodology and Enrollment Projections

Zonda Education’s projection methodology starts at the elementary level. We review the cohort patterns for each elementary zone and compare to housing trends. We create a housing forecast for each zone and apply similar yields (students per house) as we see in the surrounding area. Our team studies housing characteristics to assist in the future yield assumptions (Housing price, housing type, age of the housing and location will impact yields). We study the feeder pattern ratios and then advance the students (enrollment) up into the middle and high school grades. The Kindergarten projections are tracked and compared to the birth rate ratios to determine if adjustments need to be made to the Kindergarten projections. We will use high school cohort patterns to assist with the high school projections.

Population Analysis

POPULATION PROJECTIONS METHODOLOGY

Templeton Demographics uses a detailed methodology in building population projections. First step is to break the district down into small geographic sections called planning areas. These planning areas are usually established around subdivisions and multifamily areas but major roads and transportation access also play a role in their creation. Second step involves the calculation of housing student yields which are calculated from the school district's student data that is carefully geocoded into our mapping software for analysis. Third step involves the review of student history to establish cohort patterns or historical growth rates. Fourth step involves the study of the housing market to forecast new single and multifamily housing units being built within the planning areas established in step one. Fifth step involves review of existing housing to establish regeneration areas based upon the age of the homes. All of these factors are used to build the ten year population projections at the campus and grade level

Note: Reside is determined by what attendance boundary the student's address is located. Only schools that have a designated attendance boundary are used. Addresses that are mapped outside the district are assigned to "OUT OF DISTRICT". Addresses that are unable to be located are assigned to the attending campus.
