

Pre-K to Pre-Med

Beginning in Pre-K and continuing through to high school graduation, students will engage in innovative and multi-age programming. The program will focus on medical professions, health and human systems, and health, wellness, nutrition, and preventive care to nurture interest in and prepare students for careers in the medical field. The expanded programming will ultimately improve the health of our students and our community. Students attending Jordan and Overton elementary schools will continue this programming at the middle school and high school level, and students attending the New Northeast Middle School that do not feed into LBJ Early College High School can choose to attend the LBJ Health Professions program.

Serving Students

Students with a curiosity about health and human services will be exposed to all manner of programs, and have opportunities to interact with physicians, surgeons, researchers, and other professionals in the medical field. Exploration of the many aspects of health affords an early start to a focused career path.
